Description These 41 liter matte black side cases are sold as a pair and are characterized by a "KEYLESS" satin silver small access door that is secured by a combination lock. With clever placement of your items, this door allows for quick retrieval of them without having to fumble with keys or stop the bike from running. The cases attach only to Monokey technology side frames, will accommodate two full face helmets each, still feature the full door opening associated to most cases, and are easily latched/locked using a single key. Sold separately, accessories include different color small door lids (subject to color availability) and an inner bag for quick removal of the case contents.
